Comparing your classroom averages to the “Numbers to Beat”

Highest Average Lessons

1. Select the date range March 14 through present (until April 10).
2. View your Classroom Average at the bottom of the Lessons Completed column.
3. Compare your classroom’s average to the Average to Beat at DreamBox.com/math-challenge.

Most Improved Usage

1. Determine your Baseline Usage (your baseline is classroom average usage during the immediate month prior to the DreamBox Math Challenge).
 - Select the date range February 14 through March 13, 2015.
 - Identify your Classroom Average at the bottom of the Lessons Completed column (see image). This is your Baseline Usage.
2. Determine your Current Usage.
 - Select the date range March 14 through present.
 - Identify your Classroom Average at the bottom of the Lessons Completed column. This is your Current Usage.
3. Calculate your classroom’s Change in Usage.
 - $(\text{Current Average} - \text{Baseline Usage}) / \text{Baseline Usage} \times 100 = \text{Change in Usage}$
 - Compare to the Number to Beat at DreamBox.com/math-challenge.

Keep Playing!

Persistence pays off. Completing more lessons improves your classroom’s chances of winning in the weekly drawing, and of winning the Persistence Pays Off raffle at the end of the contest.
