

September Math Activity Calendar.

It's back-to-school month. Get your kids on their school schedule, and celebrate with these hilarious holidays! Every year on the first day of school take a picture of your children in the same spot. In a few years you'll have a visual record of how they've changed.

S	M	T	W	T	F	S
		1 Use a watch to find out how long it takes to get to school from your house.	2	3 Skyscraper Day. What is the tallest building in your city? How tall is it?	4 Elasticity day. With your parent's help, measure your bubble gum.	
6 Fight Procrastination Day. Do your homework before lunch! Or take time to plan the coming week with your family.	7	8 Do you use pencils at school? How many different pencils do you use in a month?	9 Teddy Bear Day, named after President Theodore Roosevelt in 1902. How long ago was that?	10		
13	14 Yummm, it's National Cream-filled Donut Day! How many donuts are in a baker's dozen?	15 Help make dinner tonight. Measure the ingredients. How many different measures did you use?	16	18 If a pendulum ticks every half second, how many times does it tick in a minute? In an hour?	19 Talk Like a Pirate Day! ARRRR you up to the challenge to do it all day long, matey?	
20	21	22 Hobbit Day. If hobbits are half your height, how tall are they?	23 What's the difference between an equilateral triangle and a right-triangle?	24	25 National Comic Book Day. Read a comic, then try drawing your own!	26
27	28 Family Day. Set the table and eat dinner with your family. How many knives, forks, and spoons do you need?	29	30 Ask a Stupid Question Day. But there are no stupid questions, right? Ask a question on our blog! www.dreambox.com/blog			Try DreamBox Learning K-2 Math: where serious learning is seriously fun! www.dreambox.com
